Rick Paul and Ashlea Schwarz founded Paul LLP after years of litigating high stakes commercial cases together. We have fought against some of the biggest companies in the country, including Syngenta, Monsanto, Corteva, JPMorgan Chase, Phillips 66, and General Motors. And we have won big. We founded the firm on two overriding principles: (1) a strong passion for litigating cases on behalf of our clients; and (2) a desire to make meaningful, industry-wide changes that create reshaped markets and improved lives.

We have recovered nearly three billion dollars for our clients through trial, arbitration, and settlement. We have handled some of the largest cases in the country against the largest, most well-funded and well-represented companies. And, we don't just litigate—we prepare cases for trial and take cases to trial.

The Work We Do

Agriculture: The agricultural industry is rapidly consolidating and is launching new biotechnology products every year. Located in the Midwest, we have a deep knowledge of how law and agriculture intersect, including the areas of negligence, chemical-drift, trespass, antitrust, food safety, trade, marketing, and resource management. The agricultural and biotechnology industries are highly regulated with a complex web of state and federal regulations, many of which give rise to preemption issues. Our lawyers have handled a wide variety of cases in this area of the law and are well-versed in the statutory and regulatory issues that arise in litigation related to agriculture in individual, mass, and class actions.

Antitrust: Antitrust laws were enacted to ensure that businesses play by the rules to ensure that a free market prevails. Our lawyers have both prosecuted and defended antitrust actions in the agriculture, technology, and health care industries. We handle both antitrust class actions as well as individual cases. We make sure that companies who engage in unfair business practices are kept in check, allowing other businesses the opportunity to compete in a fair marketplace.

Class Actions: We know how difficult it is for a single person to bring a case against a large corporation or entity. The enormity of this task prevents many people from pursuing legitimate claims, which allows companies to continue with unsafe, unlawful, or unfair practices. These are often pervasive, industry-wide violations. Our attorneys have the skill set necessary to bring about meaningful change through class litigation.

Commercial Litigation: Partnerships within or between businesses often lead to disputes. When partnerships are exploited, or contracts are not followed through on, we help pick up the pieces.

Commodities: Being a Midwest law firm, we know commodities litigation. From grains, farm animals, oil and gas, precious metals, we have handled a broad spectrum of commodities-related litigation. We are familiar with the commodities exchanges, the statutory and regulatory environment, and the jargon of these industries.

Products Liability: We have a breadth of experience in ensuring manufacturers take responsibility for products that cause harm or injury to consumers. Injury and financial harm can result from products with faulty design or improper manufacturing, as well as a company's failure to warn consumers of possible injury or unwanted side effects from use of that product.
